PROFESSIONAL SUMMARY

Senior IT Service Management Specialist with 10+ years of experience in banking, energy and mission-critical environments. Hybrid technical-management profile specializing in Problem Management and Incident Management under the ITIL framework, with advanced proficiency in Helix ITSM and Aranda Service Management platforms. Proven ability to lead multidisciplinary technical bridge calls, coordinate N1/N2/N3 teams, build executive KPI dashboards and drive Root Cause Analysis (RCA) committees. Key differentiator: autonomous development of ITSM automation tools that eliminate manual work and accelerate client value delivery. Solid complementary background in IT infrastructure, continuous service monitoring and offensive cybersecurity.

VALUE PROPOSITION

WHAT I DO	FOR WHOM	WHAT RESULTS	IN WHAT TIMEFRAME
End-to-end incident & problem management under ITIL: technical bridge calls, RCA, KPI dashboards and SLA/OLA control.	Banks, telecom companies and energy/oil sector organizations with 24x7 high-criticality operations.	▲25% MTTR reduction · ▼30% downtime during migrations · Sustained SLA compliance in P1/P2 scenarios.	Results proven over +10 years of career; recent achievements delivered within 3–6 month cycles.

ITSM Tools Automation

Independently built a full-stack web system (React + TypeScript + Recharts + IndexedDB) that automates ITSM reports, RCA committee minutes, operational charts and ticket audit logs. Eliminates hours of daily manual work and delivers executive dashboards ready for the client in real time, including SLA compliance tracking, problem & incident follow-up and complete service document management.

TECHNOLOGY STACK

ITSM & Processes	Helix · Aranda Service Management · Aranda Query Manager (AQM) · HP Service Manager · BSM · ITIL v3/v4
IT Monitoring	Zabbix · Tango04 · Pingdom · Cloud Control · Centipede · Intelliview
Automation / Dev	React · TypeScript · Python · JavaScript · Vite · Recharts · IndexedDB · Docker · WordPress
Infrastructure	Linux (Debian/Kali) · Windows Server · VMware · Asterisk · Grandstream · Avaya · VoIP/SIP
Cybersecurity	Burp Suite · Metasploit · Nmap · Pentesting · Network & Server Hardening · Kali Linux

PROFESSIONAL EXPERIENCE

Stefanini Group — BBVA Project [\[Banking\]](#) · Lima, Peru

Senior IT Incident & Problem Management Specialist *January 2026 – April 2026*

- Managed the end-to-end lifecycle of incidents and problems under ITIL using Helix ITSM, ensuring full traceability and SLA-compliant closure.
- Led P1/P2 high-severity bridge calls coordinating internal resolver teams and external vendors through to root cause identification and definitive resolution.
- Built executive KPI dashboards and service quality reports; facilitated RCA committees with corrective and preventive action plans client.
- Audited incident records to ensure proper classification, timely escalation and strict compliance with agreed SLA thresholds.

Stefanini Group — Banco Pichincha Project [\[Banking\]](#) · Lima, Peru

Senior IT Incident & Problem Management Specialist *November 2025 – January 2026*

- Managed incidents and problems under ITIL with Aranda S. Management; delivered daily metrics to the client through Aranda Q.M (AQM).
- Coordinating multidisciplinary bridge calls and vendors through to closure, root cause analysis and corrective action plans.
- Reduced open problem backlog through systematic follow-up; trained the team on ITIL processes, Aranda tools and service management best practices.

Stefanini Group — PetroTal Project [\[Energy & Oil Sector\]](#) • Lima / Iquitos, Peru

IT Supervisor → On-Site Technical Support L2 *December 2023 – October 2025*

- Promoted to IT Supervisor (Jun–Oct 2025): led N1/N2/N3 teams with shift planning, SLA control and continuous staff performance evaluation.
- Reduced downtime by 30% during critical system migrations and transitions in an oil field environment, coordinating with vendors and technical areas.
- Consolidated monthly service reports, led internal committees and managed hardware/software inventory in a mission-critical operational setting.

Banesco Banco Universal [\[Banking\]](#) • Caracas, Venezuela

Senior IT Support & Monitoring Analyst *November 2017 – June 2018*

- Monitored critical services 24×7 using BSM, HP Service Manager, Tango04 and Pingdom; reduced incident response time by 20%.
- Coordinated efficient escalation to specialized teams and proposed process improvements that were adopted across the service desk.

MV-TEL [\[Telecommunications\]](#) • Lima, Peru

IT Projects Engineer *March 2023 – December 2023*

- Deployed Asterisk-based VoIP platforms (ACD, call queues, SIP trunks, hardphone/softphone) for clients including Claro Peru, improving call center handling time by 10%.
- Administered Linux servers and Grandstream (certified) and Avaya solutions; documented processes and managed VoIP infrastructure incidents.

Municipality of Francisco de Miranda [\[Public Sector\]](#) • Guarico, Venezuela

IT Department Head *January 2016 – May 2017*

- Strategically led the IT department: LAN/WAN infrastructure, N1–N3 support and operational continuity of tax and administrative systems.
- Implemented internal incident management workflows and contingency plans; oversaw technology upgrades and staff training programs.

TECHNOLOGY DEVELOPMENT PROJECTS

BPP Platform — Business Problem & Performance | [Own ITSM system](#) · [github.com/wuilmberbolivar/portafolio](#)

Full-stack web system for Problem and Incident Management teams. Automates operational charts, RCA meeting minutes, executive reports, ticket audit logs and SLA compliance control. Modules include problem & incident tracking, document management and xlsx data export.

Stack: React · TypeScript · Vite · Tailwind CSS · Recharts · IndexedDB · xlsx

Slange Trading — Trading Academy | [Full Web Platform](#)

Complete online academy management platform: student management, membership control, exam grading, academic progress tracking and an instructor dashboard. Responsive UX/UI design.

InitNullTV & Cybersecurity Blog | [Spanish-Speaking Tech Community](#)

Founder of a tech educational platform with an active Patreon community. Publishes CTF write-ups (TheHackersLabs, HackMyVM, Dockerlabs), vulnerability analyses and pentesting notes, contributing to the global cybersecurity community.
